

THE FOLDSMART

FOLDING SPEEDGATE

Easy to Use and Fast

The FoldSmart Gate is our newest addition to the folding gate line up. The heavy duty folding gate comes in two models; TopTrack and Trackless, and is user friendly with 24 field programmable options.

Folding gates are known for their compact footprint that can accommodate situations where slide and swing gates do not fit.

The quick movement of the FoldSmart SpeedGate helps move traffic in a secure and efficient manner while reducing the risk of tailgating.
