

PDXT SERIES SPEEDGATE

time sensitive security

The PDXT Series Trackless SpeedGate is the perfect combination of speed and security. With an open or close cycle-time of less than 7 seconds, the PDXT Series Trackless SpeedGate ensures minimal site exposure, virtually eliminating tailgating.

FEATURES

- Rapid cycle-time
- Electromechanically driven
- Minimal footprint and operational clearance required
- Robust construction
- Factory assembled and tested
- Integrated drive units
- Single-source supplier
- Variable speed drive

BENEFITS

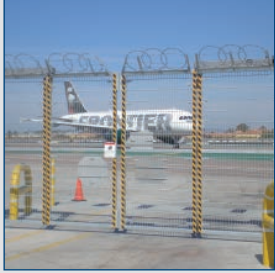

- Reduced site exposure
- Easily integrated into existing site plan
- Easy to install
- Extremely low maintenance
- Reliable
- Reduces idling time
- Increased throughput reduces security risk

Trackless gate with razor wire

Trackless gate

Custom panel infill options

Welded Wire Infill

TECHNICAL DATA	UNIT	PDXT TRACKLESS
Voltage	VAC	208 - 240V
Frequency	HZ	60
Current	A	20
Duty Cycle	%	100
Max. Clear Drive Thru Height	Feet (m)	Unlimited
Max. Clear Drive Thru Width	Feet (m)	20' (6)**
Max. Gate Panel Height	Feet (m)	10' (3)***
Gate Infill	Panel Infill	Vertical Bar/ Welded Wire
Finish	Coating	Galvanized and/or Powder-Coated
Operating Temp Range	°F (°C)	-40 to +120* (-40 to +49)

*Ventilation kits recommended for temperatures over 120 F

**Available height of 10' H - 18' W

***Available width of 20' W - Max 8' H

TECHNICAL SPECIFICATIONS

- Rapid open or close cycle-time of less than 7 seconds reduces security risk
- Fully galvanized construction makes for a durable product
- Gate is shipped factory tested, ready for a fast and easy install, reducing site exposure and operational downtime
- PLC controlled for easy programming and integration into any perimeter security system
- Panel infill options available to match overall architectural design
- Thru-Beam Photo Cell
- UL 325 Listed (class 1,2,3 & 4)

STANDARD FINISH

- Galvanized
- Custom powder-coated colors available on request

OPTIONS

- Tailgate Detection and Anti-Tailgate Logic
- Uninterruptable Power Supply (UPS)
- Traffic Lights (bidirectional)
- Strobe Light
- Detection Loops
- Hot or Cold-Weather Kit
- Custom control consoles
